## WELCOME TO LEARN & GROW TOYS

Learn and Grow is a very special brand that has been developed through a love of quality open-ended and educational toys.

We are a family-run distribution and toy company based in Coffs Harbour, NSW, Australia.

We aim to bring a wide range of beautiful and educational products to Australian & International retailers.

Our products are designed around the ethos of 'Play, Learn, Grow' and our hope is they bring hours of creative and open-ended play to young children worldwide.

We currently have 12 products available for distribution.

We have significant product development in the pipeline with new ranges to be available soon.

Learn & Grow Toys is committed to continually expanding their product line of innovative toys.

Please email us at [hello@learnandgrowtoys.com](mailto:hello@learnandgrowtoys.com) if you would like pricing details and a distribution order form.

Thanks so much for your interest in our exciting new brand!

## WHY LEARN & GROW MAGNETIC TILES?

Learn & Grow Magnetic Tiles are designed to encourage imagination and inspire open-ended play.

With 9 different sets currently available, our magnetic tiles are perfect for building an imaginary, creative world.

With new stronger ABS plastic and an internal logo to create a flat and more scratch resistant tile, our newly designed tiles take building to the next level.

Featuring our new and exclusively designed large square and car base. We have added magnets through the large square and car base to expand building capabilities.

We are the only Australian toy company to stock these type of extra strong tiles.

Each tile has strong magnets to allow for tall buildings and structures that do not continually fall down and frustrate little builders.

Sets can be added to expand play opportunities and are compatible with all major magnetic tile brands.

Learn & Grow Toys are the first Australian toy company to create and produce magnetic ball runs, we launched these in July 2020.

Our fantastic ball run expansion pack takes your magnetic tiles to a whole new range of play and exploration opportunities.

What will you build?

INTRODUCING  
OUR NEW  
MAGNETIC TILE  
TOPPERS

INDUSTRY  
FIRST  
MAGNETIC  
TILE TOPPERS

A photograph of a child's play area. In the foreground, a toy train is constructed from large, colorful plastic blocks. The train consists of a green engine with a yellow window and a small figure inside, followed by a blue car, a purple car, and a tall stack of orange and red blocks. The train is on a track made of green and purple interlocking tiles with white dashed lines. In the background, there are animal head cutouts on the wall and a light switch.
